Resume Writing *GUIDANCE*

1. **Technical Skills and Proficiency:**

   1.1. Highlight your experience with ServiceNow development and implementation.

   1.2. Mention specific ServiceNow applications or modules you have worked on.

   1.3. Include any relevant programming languages and technologies, such as JavaScript, HTML, CSS, and REST/SOAP APIs.

   1.4. Emphasize your experience with web development and integration.

2. **Education and Certifications:**

   2.1. Clearly state your educational background, including degrees in Computer Science or related fields.

   2.2. List any relevant certifications, such as ServiceNow Certified Application Developer or ServiceNow Certified System Administrator.

   2.3. Mention any additional training or courses related to ServiceNow or software development.

3. **Professional Experience:**

   3.1. Detail your work experience, focusing on roles where you developed and implemented ServiceNow solutions.

   3.2. Describe specific projects you have worked on, including the scope, your role, and the outcomes.

   3.3. Highlight your ability to work collaboratively within a team of developers and with key stakeholders.

4. **Problem-Solving and Innovation:**

   4.1. Provide examples of how you have developed innovative solutions to optimize processes and create business value.

   4.2. Mention any challenges you faced and how you overcame them.

   4.3. Emphasize your ability to consult with stakeholders to gather requirements and develop effective solutions.

5. **Soft Skills and Attributes:**

   5.1. Highlight your communication skills, both written and verbal, as these are crucial for consulting with stakeholders and documenting requirements.

   5.2. Mention your ability to work in a fast-paced environment and manage multiple tasks simultaneously.

   5.3. Emphasize your attention to detail, analytical skills, and commitment to continuous learning and improvement.
